Concern Worldwide, an International NGO is leading a consortium in partnership with other NGOs; CBM, icddr,b, Ipas, DRRA, KMSS, PHD, RHSTEP and Telenor Health to important a large scale health programme titled "**Essential Healthcare for the Disadvantaged in Bangladesh**".

This programme is funded by UK government reaching around 2.6 million people in urban and rural areas in the underserved, remote coastal areas in

The goal of the programme is to achieve sustainable improvements in health, family planning, and nutrition outcomes among disadvantaged populations including people with disabilities through reductions in morbidity and mortality and improvement in universal health coverage.

The target population includes 2,685,303 people from remote hard to reach and isolated areas in coastal where there is limited health services, extreme poor people who can't afford health services and people with disability in Khulna and Barishal divisions.
